FOR IMMEDIATE RELEASE

Nexgrid™ Listed as Smart Grid Company To Watch

Smart Grid Newsletter identifies Nexgrid™ as one of Twelve Companies to Watch in 2012

Locust Grove, VA. January 18, 2012 - Nexgrid™, the leading provider of standards-based smart grid solutions, today announced that it has been selected as a "Company to Watch" in 2012 by Smart Grid Newsletter. That list can be viewed here: <http://www.smartgridnews.com/artman/publish/news/The-votes-are-in-Meet-12-smart-grid-companies-we-ll-be-watching-this-year-4422.html>

Smart Grid Newsletter is one of the leading publications in the Smart Grid industry. Every year it publishes a list of companies that industry insiders believe will have a breakout year. Other companies on the list included Tendril and Tropos Networks.

Haim Shaul, CMO and co-founder of Nexgrid™ said, "Our executive management team reads Smart Grid Newsletter regularly and we are all honored to be included on this list. We believe it validates our standards-based approach as well as the belief our numerous customers have placed in us over the past three years. We look forward to further such honors and validations as we continue to build on our considerable momentum."

About Nexgrid

Nexgrid™ (formerly Intelagrid) is the emerging leader in broadband standards-based smart grid and smart home products. Nexgrid™ enables utilities to deploy a scalable, reliable, and secure infrastructure for advanced metering and real time monitoring that will scale as the needs of the smart grid grow over time.

Nexgrid's software suite allows utilities and their customers (residential and commercial/industrial) to manage and monitor all aspects of the system through a unified portal/web/smartphone environment. The software supports all major web browsers, iPhone, iPad, Android, Blackberry, iGoogle, and any smartphone.
