

Nexgrid® Accessories

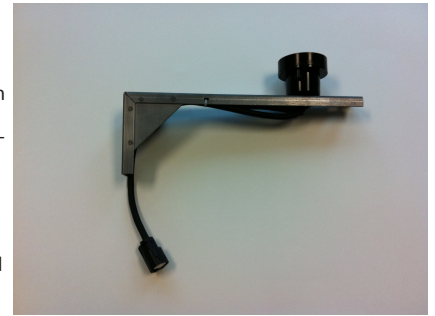

ecoNet SL™ Mounting Kit Smart Grid Gateway Accessories

KEY FEATURES

- ecoNet SL compatible
- 14 gauge galvanized metal
- ANSI C136.10 Receptacle
- Quick connect power cable

The ecoNet SL Mounting Kit works with the ecoNet SL Gateways. The mounting kit provides an alternative location where a street light may not be the most feasible. The mounting arm is constructed from 14 gauge Galvanized steel and includes an ANSI C136.10 photocell receptacle and quick connect power cable for easy installation. The mounting kit can be easily fitted on a pole or vertical structure.

Additionally, the mounting kit supports the ability to add a high gain antenna .

Optional High Gain Antenna
